

Installing VR Chat on a PC

Edwin Garcia - 2022-05-26 - Comments (0) - Virtual Reality

(To install VRChat on your PC, you would need to download STEAM first)

1. Install STEAM: <https://store.steampowered.com/about/>
2. Create a STEAM Account, then proceed to download to install on your computer.
3. After installed. Open STEAM, click on the STORE (Top left corner)

4. On the top right type: **VRChat** in the “search” box:

5. Click on **VRChat** to download page:

6.Sc

roll down to “Play VRChat” and click on the **Play Game** to download (See Image Below):

7. Once your VRChat is downloaded scroll back to the top left and click on **LIBRARY**:

8. On the top left side you will see **VRChat** under "GAMES is now installed: (Image Below)
