

VR Chat Account Creation Instructions

Martin Palumbo - 2022-05-26 - Comments (0) - Virtual Reality

1. On a computer, navigate to <https://hello.vrchat.com/>
2. Click the "login" button located on the top right-hand corner of the screen

3. Click on "Create a New Account"

- 4.

Enter the desired username, an email address, password (make sure to read the password requirements), your date of birth, checkmark the license agreement, and validate you are human. Once you have filled out all of the required information and validations click, create account

VRCHAT

Create a New Account

[Login](#)

→ Desired Username

Your username is only used for signing in.
You can change the display name that appears in-app after creating your account

→ Email

→ Re-Enter Email

→ Password

→ Re-Enter Password

Use a Strong Password
We recommend using a password which is:

- At least 8 characters long
- Unique to this account and not in use anywhere else
- Uses a combination of letters, numbers, and symbols
- Stored in a Password Manager

Date of Birth

→ January Day Year

→ I have read and agree to the [Community Guidelines](#), [Terms of Service](#) and [Privacy Policy](#)

Keep me up to date with VRChat News using the awesome power of your emails

→ I am human

Create Account

5. Check the email you used to sign up for your account for an email from VRChat to verify your account and click the link inside the email that states "click here to confirm your email address"
6. You now have a VRChat account
